EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows: claims 1-9 and 78 have been canceled.

The following is an examiner's statement of reasons for allowance: the prior art of record teaches a method fabricating a unit panel, comprising: providing a base substrate having a first region and a second region; forming at least one first unit panel of an LCD panel of a first size within the first region; and forming at least one second unit panel of an LCD panel. The prior art of record does not teach nor suggest in combination with the above limitations the second region size is different from the first size.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
